Learn Autos

with this great Reference Library

DYKE'S AUTO MANIKIN

The Inside of the Auto Laid Bare for You

The simplest, cleverest device for learning autos ever invented. An actual car on paper—the hood opens, wheels, body, engine housing, etc., fold back so you can see exactly how the car works. 108 parts pictured. Actual size, 12½x9 inches.

A Complete Home Training

DYKE'S AUTOMOBILE and GASOLINE ENGINE ENCYCLOPEDIA

A PRACTICAL BOOK TREATING ON THE PRINCIPLE, CONSTRUCTION, OPERATION, REPAIRING, TROUBLES AND REMEDIES

Only \$9.75 on Easy Monthly Payments — \$2.75 Down

Every Cooke Student Can Make Use of This Complete Auto Training

ONE Auto Job, done in your spare time, can easily pay all the cost of this great combination Auto Training—now offered to L. L. Cooke students at one-third the regular price.

Here's a wonderful buy—\$22.50 to \$25.00 worth of practical, proven auto instruction for only \$8.75. And this combination teaches you everything that a \$90 to \$150 auto correspondence course would teach you. Let's see what you get for \$8.75 in the way of money-making auto training:

To begin with, there's Dyke's Automobile and Gasoline Engine Encyclopedia. A 1250 page book just filled to the brim with usable, cashable auto facts. Here's something about this book it will pay you to remember: Go to any auto trade school and the first thing they'll tell you is, "Get Dyke's. That's the book we use to study autos." But why pay \$100 or \$200 to study a book that I give you, along with two other fine training helps, for only \$8.75?

Don't think, however, that anybody can get in on this great bargain. No, Sir—only Cooke students may have the privilege of pocketing a saving of \$13.50 cash on this wonderful training. I promised Dyke's publishers I'd limit my offer to my "boys" alone, because the book sells everywhere for \$7.50 (postage extra) in this fine binding—never for a penny less.

And Dyke's Auto Book is only one of the three great helps you get in my special training offer. You receive also my own Book of Auto Electrical Wiring Diagrams in blueprint form—instantly ready for use on any auto electrical job, and the equal of any \$12 to \$15 blueprint

book on the market. The Auto Manikin, which you'll have to see to appreciate, is specially imported and sells for \$2.50. So you see that this great combination, if bought separately, would represent a value of \$22.50 to \$25.00. And it's worth it, too—no other group gives, in such a brief, simple, understandable way, every fact you want to know about the automobile.

But, through special arrangement with the publishers of DYKE'S Auto Book and Auto Manikin, I am able to offer my "boys" this world-beating combination for the amazing price of only \$8.75 cash or \$9.75 on easy payments. All carrying charges prepaid. And, best of all, you can pay for the group on easy payments—\$2.75 now and \$3.50 a month for just two months.

Never Before on Easy Payments

Never before have these three great auto helps been sold on any save a strictly cash basis—never before have the prices been cut. It's something brand new, and an offer made only to Cooke Students.

Step up, if you want a set! Don't hold back—start getting the full benefit of this great training—\$2.75 now and the set is yours! If you are still paying for your electrical course, I'll just add the remaining payments on to your monthly statements and you pay \$8.50 a month for two months, instead of \$5.00, until the \$9.75 is paid off. Paid up students will pay only \$2.75 down, and \$3.50 a month for two months more. If you prefer to send full payment with order send only \$8.75—this means an extra saving of \$1.00.

You get the whole outfit, postpaid, for about one-third regular price—Nothing else to pay

Set Sent on 5 Days' Approval

The minute your order and first payment reaches me, I'll send you this entire combination training—books and manikin. Then you may look them over, examine them fully, and if you are not entirely satisfied with your bargain, return them within five days and get your money back.

Thus you don't risk a penny when you order this set. I don't want your money unless you decide that it's the biggest and finest buy you ever made!

Send Your Order NOW!

Dyke's Better Than Claimed

"I am so well pleased with 'DYKE'S AUTO-MOBILE AND GASOLINE ENGINE ENCYCLOPEDIA' that I must admit it is even better than you claim it to be in your circulars."

G. E. SCHROEDER,
Parker, Wash.

A Few Facts About DYKE'S

THE WORLD'S GREATEST AUTO BOOK

For 15 years "Dyke's" has been the one recognized and undisputed authority on the Automobile. The new 14th Edition, completely revised and brought right up to the minute, is the greatest book on autos ever published. 1,249 pages of text, 4,200 illustrations and a 15,000 line quick-finding index, make it without question the world's most complete and practical automobile guidebook.

Dyke's has been praised by leading magazines of the industry like "Motor Age," "Automotive Industries" and "Motor." Over 125,000 people will buy the 14th Edition.

Features that make Dyke's especially valuable are:

Special instructions on testing and adjusting every part of the automobile.
Specifications of gasoline passenger cars, trucks and tractors.
Specifications for replacements, accessories, interchangeable parts and equipment.
Large colored combination chart showing working principles of the automobile.
New section of "Trouble Shooting Charts" in colors to enable you to locate quickly any major or minor trouble on any car.
Special sections on Ford care and repair, motor trucks, and tractors.
Hints on how to get most mileage and service out of a car.
Complete instructions on carburetor adjustments, ignition, starting and lighting, changing of tires, installing new parts, etc.
Full descriptions of new auto accessories: Stewart Vacuum Tank, Alemite system, Skinner Oil Rectifier, Air Cleaner.
Four Wheel Brakes—hydraulic and mechanical, Engine Balancers, Ricardo Cylinder Head, Balloon Tires, etc., etc.
Shop equipment and its use—complete directions for installing and operating a repair shop.

Dyke's Auto Book, The Automobile Manikin, and the L. L. Cooke Automobile Electrical Blueprint Book—A Wonderful Training—A Valuable Reference Library that Every Man Needs—at an Amazingly Low Price to You!

"HOW can I learn Autos?" Hundreds of my "boys" have asked me this question. In the last few months, I have been requested dozens of times to recommend an auto training that would be complete, yet brief; practical, yet inexpensive.

After looking over the various books and courses now on the market, I have decided that three great helps will give a man everything he needs in the way of auto instruction. They are:

DYKE'S Auto Book—the greatest single book on Autos ever written.

L. L. COOKE Book of Auto Electrical Wiring Diagrams—a handy blueprint book that you can use every day on the job.

DYKE'S Auto Manikin—a miniature Automobile on paper, that you can take apart and study section by section.

Why Electrical Men Should Know Autos

Some fellows want to learn autos because they have a car of their own. They figure, and rightly too, that a knowledge of cars will help them get more satisfaction from their machine, as well as save money on repairs.

Other men plan to get into the Auto Electrical game, and naturally they will want a working knowledge of the mechanical side too. It's a fact that a lot of work will come to the man who knows both the electrical and mechanical side of auto repairing.

Then there are a good many maintenance and chief engineer jobs that call for taking care of the firm's cars, trucks, tractors and gas engines. The men who get these jobs have to know autos as well as electricity.

These are just a few of the reasons why you need this Auto Training. It's not an expense, but an investment—an investment that will be worth many, many times as much as you pay for it!

Send Your Order Today and Put This Training to Work for You Right Away

With these three helps, any man can learn autos, quickly and thoroughly, at home. Or, if you haven't the time to study them all the way through, you can use them for reference purposes—just keep them handy, to turn to when a repair job comes your way.

So I've combined these three AUTO HELPS in one special offer—a \$22.50 value for \$8.75! To all Cooke Students this special price is made—and to them alone.

See what you save! Dyke's Auto Book in the flexible binding costs \$7.50 everywhere. Auto blueprint books bring \$12 to \$15. Dyke's Manikin is \$2.50. And you get ALL THREE for only \$8.75—about a dime a day for three months if you'd rather buy on easy payments.

At this surprising price, one or two jobs will pay the entire cost of this wonderful Auto Training. Get it now, and let it MAKE MORE MONEY FOR YOU!

Couldn't Get Along Without Dyke's

"I would no more think of getting along without DYKE's than I would think of getting along without eating."
